Please review the below noted correction to Case Book AR. 3-27. This correction will be inserted into the Case Book at the next scheduled update.

Correction

A.R. 3-27. If an event is utilizing a third-party video reviewer, who decides whether a coach requested video review has been timely requested?

RULING: Video review rules require the coach to immediately throw the brick on a video review challenge. Per Rule 3.13.9f, it is the referee (not the third-party reviewer) who makes the determination on whether the coach delayed throwing the foam brick onto the mat. If the referee believes the coach delayed in requesting the video review challenge, the referee can deny the request. If a referee denies a video review request because of timeliness, the institution will ~~still be charged for using a video review timeout.~~ **be charged with a control of mat violation using Rule 3.13.9.g**
(Rule 3.13.9f &g)
