

# Wrestling Officiating Enrichment Program

In a continuing effort to support wrestling official's associations across the country, the NCAA is accepting applications for funding to support their efforts with ***recruiting, retention, training, education and mentoring***. Funding will be provided with the intention of financially supporting efforts by the association in one or more of these areas. With the number of collegiate wrestling officials declining, special consideration will be given to proposals with initiatives to recruit new officials.

The deadline for applications is November 1. Applications should be returned to the NCAA national office via email with the subject line of "Wrestling Officiating Enrichment Program Application" to:

**Leslie Havens**  
**Assistant Coordinator, Championships and Alliances**  
**NCAA**  
**Email: [lhavens@ncaa.org](mailto:lhavens@ncaa.org)**

Along with the attached application, please provide a copy of your associations Articles of Incorporation and/or Bylaws, a proposed budget and any other information relevant to the proposed program.

Please note, all associations that were awarded funding in 2020-21 must submit final reports by September 30, 2021. Failure to submit a report will make the association ineligible for an award in 2021-22.
